

## Fibre Optic Cleaning Kit

### KI-TK1013

Dirt, dust and other contaminants are the enemy of high-speed data transmission over optical fibre. Today's network applications require more bandwidth, making loss budgets tighter than ever. It is critical that all optical connections are clean and free of contaminants to ensure application success.

The Fibre Optic Cleaning kits have the best tools to effectively remove the toughest contaminants with ease.

### Kit Contents

- **1x Fibre Optic Cassette Cleaner**  
This fibre optic cassette cleaner utilises a densely woven fibre cleaning fabric to remove contaminants from ferrule end faces. Each reel is good for over 500 cleans & included in the kit is a replacement cleaning reel. Suits SC, FC, ST, DIN, D4, MU, LC, MT, MPO (f), MTRJ (f) & Biconic
- **150x Fibre Optic Cleaning Swabs**  
This kit contains 100x 2.5mm and 50x 1.25mm cleaning swabs. These versatile and effective cleaning swabs can be used with or without fluid and are particularly suited to bulkhead, transceiver and through adapter cleaning.
- **10x Pre-saturated Wipes**  
Self evaporating cleaning wipes are suited to cleaning fibre connectors, fibre cable & coax cable and for the preparation of splicing joints.
- **100x Lint-free Wipes**  
Lint-free, non-woven wipes made from hydro-entangled polyester/cellulose blend for optimum purity, superior cleaning. To be used standalone or with alcohol/solvent.
- **1x IPA Cleaning Pen**  
The contained isopropyl alcohol cleaning pen offers a convenient lens and connector cleaning solution for removing contaminants.

### Features & Benefits

- Cleaners to suit a large variety of fibre ferrules and connectors
- Rugged nylon carry bag safely stores the cleaning equipment and ensures long life
- Includes stick, cartridge & reel and wipe style cleaners
- Excellent cleaning performance ensure network reliability and longevity
